

AGENDA

KAIZEN SEMINAR 2017

The seminar seeks to promote the TPM body of knowledge and engage with the manufacturing sector at a national level towards World Class manufacturing excellence.

Venue: Dolphins Leap Conference Centre

Address: Dolphins Leap Centre, cnr. Beach Road & La Roche Drive, Humewood, PE

Date: Wednesday, 8 March 2017

Time: Registration 08h30 to 09h00 ending at 16h00

Contact: Bianca Ehlers

Tel: 041 393 2131/072 225 7720

Email: behlers@aidcec.co.za

Refreshments and a meal will be served.

Programme

08:30-09:00	Arrival: Registration, Snacks and refreshments
09:00-09:15	Opening and welcoming of judges by Mr. Hoosain Mahomed
09:15-09:55	Guest Speaker Mr. Rakesh Atre: Lean Machine Concept
09:55-10:10	Criteria for awards by Mr. Hoosain Mahomed
10:10-10:25	Kaizen Presentation (Omnia Fertilizer)
10:25-10:40	Kaizen Presentation (Tenneco Emission Control)
10:40-11:00	Tea Break
11:00-11:15	Kaizen Presentation (Natstan Wire)
11:15-11:30	Kaizen Presentation (Lumotech)
11:30-11:45	Kaizen Presentation (SJM Flex SA)
11:45-12:00	Kaizen Presentation (Air Liquide)
12:00-12:45	Lunch
12:45-13:00	Best Practice Tour by Rickus Lubbe
13:00-13:15	Kaizen Presentation (Contitech)
13:15-13:30	Kaizen Presentation (Auto Industrial Manufacturing)
13:30-13:45	Kaizen Presentation (Fry's Metal)
13:45-14:00	Kaizen Presentation (Auto Industrial Foundry)
14:00-14:15	Kaizen Presentation (Steel Best Manufacturing)
14:15-14:40	Prof. Norman Faull speaking on Kaizen methodology
14:40-15:00	Judging deliberation (Snacks and Tea)
15:00-15:20	Awards and Photos by Mr. Hoosain Mahomed
15:20-16:00	Closing by Mr. Hoosain Mahomed

Network and Cocktails after closing.

Support for the TPM Programme

Air Liquide made the decision to implement the TPM programme to understand the OEE of our plants, customer installation equipment, effectiveness of our Operators and Skills of operators. Optimise the space available to us with limited movement and increase the output of our plants without jeopardising Safety and Quality.

Fanus Labuschagne – Regional Manager of Air Liquide

Natstan Wire decided to join the TPM Programme to improve its manufacturing processes and to achieve a higher level of competitive performance by implementing the following:

1. Identify process losses and make them more visible.
2. Develop and empower teams to identify and remove the cause of each problem or loss.
3. To standardize the improved working methods.

Peet Claassen – Managing Director of Natstan Wire

“TPM is a culture of self-governing and total employee participation to drive safety, quality, cost with zero breakdown”

Shawn Myburgh – Six Sigma Black Belt/Lean Leader of Tenneco EC

SJM Flex SA embraced the TPM programme due to its methodologies of operator involvement, value adding and empowerment. SJM Flex SA looks forward to the horizontal deployment throughout the entire plant with consultation from the AIDC.

Craig Ehlers– Plant Manager of SJM Flex SA

“TPM has helped us synchronize implementation plans that lead to the realization of our vision, integrate all employees and know their contribution through constructive feedback and communication, share vision/goals which are linked to our daily business, know the impact of a single improvement activity to the strategic objectives. Smart solutions beyond rubber.”

Murray Bailes - Contitech Business System (CBS) Specialist from ContiTech Africa (PTY) Ltd
